Caveats \*\*\*you MUST have a fully licensed copy of Axis and Ohs by Loriby for this to work. 1. The scripts are NOT my work, but the effort of a much smarter person. 2. The template is for the Honeycomb Alpha and Bravo(). It is the way I like it, change at your hearts content. 3. I am not Axis and Ohs tech support. Read the manual

Nice manual and certainly the application is very useful once you become familair with the manual and the options. If I can be so bold to suggest that this application could be incorporated into the SimToolkit application and the data for the airport, weather and aircraft configuration could be filled in automatically from the data in the Simbrief or other information.
