The text begins with a focus on memory for individual items, building up to memory for associations between items,

### Foundations of Human Memory : Michael Jacob Kahana ...

Memory research has traditionally been segregated into (a) research on the cognitive organization of memory and (b) research on the brain basis of memory. As a result of this segregation, cognitive theories of memory have generally evolved in isolation from neuroscientific theories of memory, and vice versa. Moreover, cognitive theorists have regularly found that neural evidence is not ...
