J A Fayez's 11 research works with 175 citations and 102 reads, including: Tubal and adnexal abnormalities

J A Fayez's research works | Wake Forest University, North ...

Uterine anomalies are associated with an increased risk of sterility, miscarriage, premature birth, fetal loss, malpresentation, and cesarean delivery. 1, 2 Of these, congenital abnormalities can often be detected by 2-dimensional (2D) transvaginal sonography, but the final diagnosis and characterization are obtained with hysterosalpingography. It has been shown that conventional 2D ...
