PDF Planning And Designing **Healthcare Facilities**

In healthcare facility planning and design, several considerations should be taken into account to maximize your RTLS system.

Throughout this best practice, you will find real-world examples from the team at Sanford Health in the design and construction of their new \$500 million Fargo hospital.

PDF Planning And Designing Healthcare Facilities A Lean Innovative And Evidence Based Approach

Planning, Design, and Construction of Health Care ...

When designing healthcare facilities, it is important to consider more than architecture and construction. Taking a comprehensive view of operations includes considering the impact of four components on the overall system: people, processes, technology, and place.
